Approach

Our clients don't need to be experts in the fabrics, it's purchase and the process of selection – we will take care of it all. We will go over each detail with you including zippers, material colors, thickness, print, embroidery, and beyond. Our team will lead you from the beginning to ready to wear product.

The process

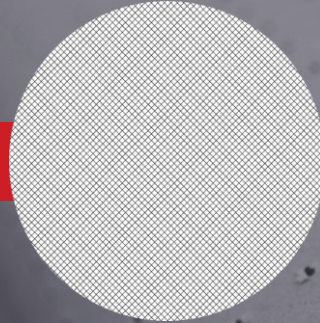

Typically, you would give us a sketch, a photograph, prepress or a similar blueprint of the future product. If you are not sure about the right material, our design team will give you a suggestion fully explaining what makes it the best fit. In addition, our experts would suggest printing techniques and then move on to the production of the first sample. Only after the sample is approved by you, we will start the production phase, which is monitored 24/7 and ends with the delivery and a satisfied client.

Design

Our design team is ready to help you in choosing the right cut, patterns, and style that works the best with the fabrics of your choice, resulting in the easily identifiable, strong brand.

Fabrics

We manufacture all type of fabrics to meet the demand of the industry having advanced mechanism and well experienced and qualified team.

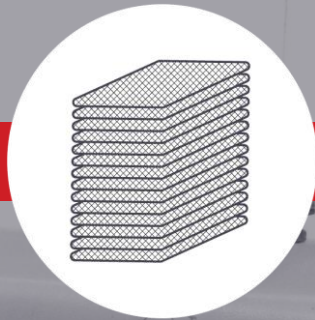

Printing & Embroidery

Among other things, our signature expertise includes screen printing up to 8c (big format screens 100 cm x 70 cm), heat transfer, sublimation printing, and embroidery.

First Sample

We insist on the first (test) sample, as the final product can look differently from the sketch. After you see and approve the first sample, we will make necessary corrections and move on to the production phase.

Mass Production

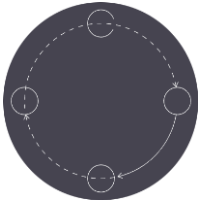

When you approve the sample, we will confirm the project and start with the production. We will monitor the process carefully making sure that the order precisely follows your directions.

Delivery

We are responsible for the process from the beginning to the end, including taking care of laws and customs regulations. This is why we can deliver on time and to the address you chose.

Specialty

All inclusive service

Our team executes the entire process, from choosing the right fiber for in-house fabric production to the doorstep delivery.

Everything is done in-house

Every stage of the production is done in-house, and our design team is entirely dedicated to your vision. We use automatic cutting and sewing machines that follow your precise directions, and our printing department is fully equipped to match the desired artwork.

FUSH° Capability

We listen to our clients and cater to their specific needs such as knitting the hi-tech fabrics and providing unique cuts. Fush offers an excellent choice of cotton and PES fabrics in various weights and colors (PANTONE) and quality printing techniques, embroidery, personalized labels, tapes, hang tags, etc.

Sportswear

We offer all imaginable textile products that your sportswear might need.

Promowear

No matter if you are a startup or a blockbusting company, we are here to answer all your needs. Advertising agencies, event organizers, and local business are some of our most satisfied clients.

Fashionwear

We offer a complete know-how and production to designers and stylists ready to launch their own fashion brand.
